## Profile

An ambitious Information Technology Specialist with near one-year experience in handling technical support and system maintenance. Graduated with a degree in Computer Science from the University of Tabuk, recognized by the Saudi Council of Engineers as a Computer Science Specialist. Proficient in delivering complete information technology support, handling CCTV security systems, and performing hardware maintenance to ensure zero down times. Has the required skills to assist in resolving all employee technical problems, maximizing the operational efficiency of information technology.

## Education

### Bachelor of Computer Science

May 2025

University of Tabuk

- Officially recognized by the Saudi Council of Engineers.
- Core focus on software engineering, relational databases, and hardware error discovery.

## Professional Experience

### Information Technology Specialist

Jun 2025 – Dec 2025

Bashaer AL-Benaa Contracting Company | Full-time

- **Technical Support & Problem Solving:** Served as the primary point of contact for all employee technical issues, resolving software and hardware hurdles to maintain high productivity levels.
- **Hardware Maintenance:** Performed routine and emergency maintenance on a wide range of devices, including computers, printers, and peripherals, across more than 16 specialized skill areas.
- **Security & Surveillance:** Managed and monitored CCTV camera systems to ensure continuous site security and operational oversight.
- **Infrastructure Management:** Delivered end-to-end technical support for company systems, ensuring all digital tools and network connections remained stable for contracting operations.

### Trainee

Jun 2024 – Aug 2024

Tabuk Health Cluster | Training Program

- **Systems Maintenance:** Assisted in the repair and troubleshooting of computer hardware and mobile devices, handling more than 7 distinct categories of technical equipment.
- **Technical Troubleshooting:** Identified and resolved system errors to support the healthcare facility's digital infrastructure.
- **Operational Support:** Collaborated with the IT department to implement technical solutions that improved service delivery within the cluster.

## Professional Certifications & Training

- Computer Science Specialist – Saudi Council of Engineers (2025)
- Introduction to Android Mobile Application Development
- Build Your Portfolio Website with HTML and CSS
- Search Engine Optimization (SEO)
- Computer Basics
- Basics of Design Tools
- Intermediate Object-Oriented Programming with Java
- Introduction to Relational Databases (RDBMS)
- Software Engineering Best Practices for Building High-Quality Programs
- Marketing Fundamentals
- Data Entry Skills

## Technical Skills

### IT Support

Providing multi-level technical assistance and employee problem-solving.

### Databases

Relational Database Management Systems (RDBMS) and Data Entry.

### System Monitoring

Professional oversight of CCTV and security camera systems.

### Hardware & Maintenance
